

The logo features a stylized circular emblem on the left, composed of three curved, overlapping segments that resemble a tulip's petals or a swirl. To the right of this emblem, the word "Tulip" is written in a large, bold, serif font. Below the word "Tulip", the word "winery" is written in a smaller, elegant, cursive script font. The entire logo is rendered in a golden-yellow color with a fine, diagonal hatching texture, set against a solid black background.

About Tulip Winery

02

In a place where dreams and true passion unite with a commitment to excellence, greatness can be created.

While this is true for all forms of art, it is certainly true when it comes to creating wine.

Tulip winery is that kind of place. Out of the great passion of the Itzhaki family for fine wine, was born a boutique winery with a mission; to create premium wines at value pricing.

Tulip winery has achieved this goal and placed itself among the elite of Israeli wineries.

Boldness and creativity are the trademarks in wine making at the winery.

Tulip wines can be found on wine lists at top restaurants and shelves in fine wine shops; both in Israel and abroad.

Tulip winery is situated in the remarkable Jezreel valley in a small village called "Kfar Tikva" (Village of hope"), a village that designed to support and provide a normal life for mentally challenged adults.

The winery proudly employs several members of the village that have become an integral part of the winery.

Tulip wines hold a spirit, a soul, an aroma and a flavor like no other wine.

"Because you cannot compete with a dream".

Tulip for the Community

Make-A-Wish

"BE A WISH MAKER" PROJECT

Tulip winery and Make-A-Wish Israel organization bonded together and led to an extraordinary and exciting project. Half of the sales revenue from our gift packs goes to Make-A-Wish Israel, which makes the wishes of children with life-threatening diseases come true.

We marked this joint venture with the creation of four Private Label wines dedicated to the project, and got graphic designer Israel Yosseph on board to donate a label design and Pitkit label printing press to donate the printing of the labels.

Black Tulip

"DON'T LABEL ME" PROJECT

With the initial release of Black Tulip in 2005, Tulip's owner, Roy Itzhaki felt that this flagship wine should represent the winery's spirit and beliefs. Knowing that an ordinary label seemed to be insufficient for this exceptional wine, we began an art competition where the participants, mentally disabled adults from four social organizations, submitted labels. An outstanding drawing was chosen, drawn by David Ashkenazi, a member from Akim organization. Ever since, this label teaches us an important lesson; We can label wines, not humans.
