

Dr. Dabour Ltd. is a company located in the north of the holyland on Mount Miron, the highest mountain of the Galilee, north of Nazareth and near the Jordan river.

Our products are produced through a combination of nature, health, technology and tradition.

We believe in the power of nature to provide us with beauty, health and wellbeing. Dr. Dabour Ltd. uses a combination of natural ingredients originating in the holyland, especially from the Galilee. Our products will help you maintain and enhance your natural and unique beauty.

Our production methods take into consideration the need to protect our planet and environment.

- **Dr. Ziad Dabour was born to a Druze family in Beit Jann, a village in the Galilee Mt. Meiron Natural Reserve. From his early days, Ziad spent a lot of time with his grandfather, a farmer who worked for his living in his fields, win eyards and goat sheds. Thus he learned from firsthand the Druze community and family secrets, recipees and know-how about the Galilee plants, which were passed from fathers to sons for generations.**
- **Ziad's curiosity, ambition and outstanding capabilities let him to the famous Technion Institute, where he reached his PhD degree in Pharmacology and Medicine Sciences.**
- **Ziad's unique sources and secrets, combined with his academic studies and experience led him to design, engineer and build a state of the art Natural and Medical Cosmetic production operation in Beit Jann at the upper Galilee, north of Israel, where it all began.**

By doing so, Dr. Dabour continues the heritage of his grandfathers with the technology of the 21st century. Ziad's sons are working with him to assure that this unique phenomena, which results in outstanding natural cosmetic products, continues for years to come.

The historic and moral values of Dr. Dabour's phenomenal operation are due to the fact that a Druze family, which lives in the Galilee for hundreds of years, managed to translate its heritage and tradition into modern cosmetic products, which are so desired now a day's all over the world.

Products:

- Unique Natural and Medical Cosmetic products, based on the classified Galilee heritage, tradition and know how, which proved to be of great value in the skin care category.
- Direct contact with the developer and manufacturer with on intermediate steps.
